

PS^x | TOTAL POWER

TRANSPORTABLE FUEL STATIONS

FEATURES:

- ▶ High Capacity, Double-Walled Fuel Tank
- ▶ Dual Lane, High-Speed Dispensing
- ▶ Tanks for Multiple Lubricants
- ▶ Integrated Generator and Transfer Switch
- ▶ Heated and Insulated Lubricant Module
- ▶ Skid Mounted
- ▶ LED Lighting

BENEFITS:

- ▶ Optimize Fueling to Increase Productivity
- ▶ Expandable Fuel Storage Capacity
- ▶ Fully Integrated Design

PS^x PitStop™ Transportable Fuel Stations

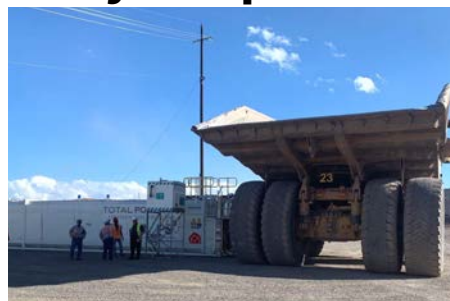

Provide flexibility and efficiency for haulage fleet refueling by reducing empty travel time to traditional fixed fuel sites.

Fast, multi-lane refueling improves equipment servicing time. Heavy-duty construction allows for all-weather operations.

PitStops are modular, able to grow with the future needs of your operations.

The Complete Package: Filtration, Instrumentation, Pumping, Lighting, Generator, and an Air Compressor are all integrated for ease of use.

Easy to Relocate & Easy to Operate
